A MESSAGE FROM MANAGEMENT

"We believe every employee bears responsibility for preventing personal injury not only for their sake but for the sake of family and fellow employees. Accidents often happen in moments of action, without proper thought, and will cease only when the right attitude creates an awareness of potential injury. The prevention of accidents should be the objective of all employees, regardless of their job or position in a company. Freedom from personal injury is a goal to be aspired to, and achieved, every day. It is every employee's moral obligation to eliminate injury and pain as a result of accidents. There is no job so important, no emergency so great, that we cannot take time to do our work safely."
